

January 10, 1989

Dear [REDACTED]:

Please be advised that the next strategy meeting of the core group to elect a second Latino to the Newark Board of Education will occur on Thursday, January 19th at 6:15 P.M. at the Aqua-Mer Restaurant on Broad Street between Governor Street and 4th Avenue.

The last meeting was spirited and insightful for all in attendance. The result of the meeting was a general consensus that the recommendation to encourage the candidacy of Milton Medina is marketable and can be accomplished if we can count on the maximum participation of those who worked with us in the past along with an infusion of other politically active people who may have been peripherally involved in last year's endeavor.

It was also realized that this year's goal will be considerably more difficult to accomplish because those who control the political pulse of Newark are not at all interested in seeing the Hispanic community share in the management of their own political and educational destiny.

Please make it a priority to attend. Those of you who did attend know that we started less than 10 minutes after schedule.

Rinconetly,

Peter J. Santosa

On behalf of

Impacto/Impacto Newark 2000

P.S. Those who have questions about strategy are especially encouraged to attend.

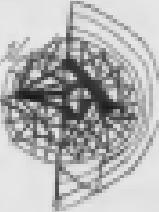

John Hill

John Higby
